

HOME CONTENTS CHECKLIST

If you don't know how much to insure your home contents for the following checklist will help. By completing this form you'll be amazed at how much you own and how much it would cost to replace it all. We've split the checklist between Household Goods and High Value Items, doing this ensures your home insurance adviser can get a policy that's right for you.

Household Goods: This covers the contents of your house and included items such as clothing, linen, curtains, the contents of your cupboards. Don't include items such as fitted furniture and built in kitchen appliances. These items will be covered under your buildings insurance.

High Value Items: These are items that have a higher theft risk and includes items such as antiques, paintings and jewellery.
